Journal Citation Indicator

Introdus în 2021, Journal Citation Indicator valorifică un alt indicator > Category Normalized Citation Impact (CNCI), un indicator găsit în InCites. Valoarea Journal Citation Indicator este media CNCI pentru toate articolele și reviews publicate într-o revistă în ultimii trei ani.

For each article and review:
Category Normalized Citation Impact (CNCI) = $\frac{\text{Actual citations}}{\text{Expected citations}}$

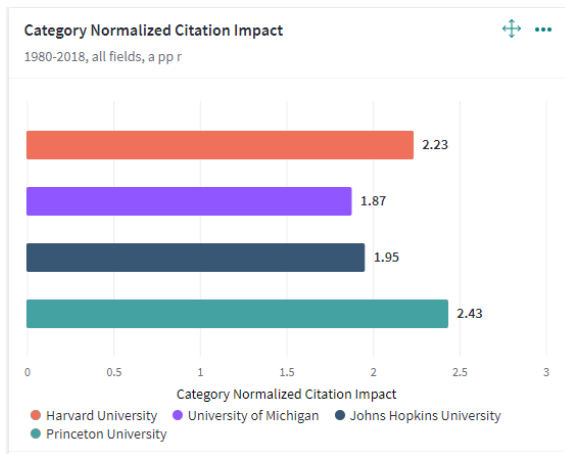

Expected citations = Average cites to items of the same document type, year, and category
